Sir Clive Sinclair,
Sinclair Research,
Cambridge.

Dear Sir Clive,

It was good to see your work acknowledged on the recent 'Microlive' programme on television, and it is concerning the Wafer Scale Integration project that we now write, as shareholders of Computer Associative Modules, Ltd.

On 6th November, 1985, our Solicitor, Mr. Fulton, wrote on behalf of CAM, Ltd., to your Financial Manager, Mr. Matthews, asking for an informal meeting to discuss the position of the CAM shareholders. Judging from Mr. Matthews' reply, dated 13th November, Sinclair Research seemed unaware of our rights, which we are advised are both in contract and in trust. A second letter from Mr. Fulton, dated 9th December, 1985, has as yet received no reply.

As you may know, CAM was set up with the support of a small number of shareholders to promote the inventions of Ivor Catt, and it was, therefore, tremendously encouraging when he became associated with you and your work. We now ask, after two years, for clarification as to how you see our position vis à vis the patents (No. 36365 and Property 1A).

You will appreciate that it is important that this significant matter be resolved as soon as possible.

All good wishes to you and the team for 1986.

Yours sincerely,

Jennifer Harbridge
