emcatac 10oct89
Catalogue of recent Ivor writings.
July 89 em789db, em789b, em689c, em689b, em789ec, em789fd

em789ec incl. em689c.
em789fd incl. em789ec (The extra is history/politics of C.A.M.
consultants)

em789dc

✓ Energy and Space. em789db 26 7 89. Submitted to Proc IEE-A 26 7 89.
Rejected by Chantry in long 8aug89 letter.
Submitted to Foundations of Physics on 16aug89. They rejected (6sep89
letter). 18sep89, I must submit it to Paranella, Canada. → FG

✓ Advances in electromagnetic theory. em789b 16 7 89. Offered to IEE Review
(incorporates Electronics and Power). Rejected 10jul89. Offered to Phys
World 16 7 89. Became em789bb. Submitted to Annales de Physique on
20aug89, letter em689bw. Submitted to Canadian Journal of Physics, letter
em689bt, 20aug89. Submitted to Australian Physicist, letter em689bs,
20aug89. Submitted to IEE Proc-A, letter 789bw, 21aug89. Rejected by New
Scientist, their letter dated 20sep89 from Mark Alder, FORUM editor. → FG
bw

NA The transmission line reconsidered. (Has diagram, one sheet.) em689c 25 6
89. Offered to Proc IEEE. Rejected, their letter 6 7 89. Offered to
Physics World and IEE Review. Offered to Proc IEE. They acknowledged
receipt, IEE Proc-A, their ref PTA752/EW/MP. 21 7 89 I sent statement of
originality. Rejected by IEE Review on 2aug89. 16aug89. submitted without
diagram to Journal of Theoretical and Mathematical Physics, 233 Spring
St., New York, N.Y. 10013. They replied (postmark 5sep89) with note on my
letter: "Please write to: Prof. N. N. Bogolyutov, Editor, Teoreticheskaya
i Matematicheskaya Fizika, Ul. Vavilovna, 42, 117966 GSP, Moscow V-333,
USSR". I then forwarded the letter with the above note, and the article
(adding the diagram em689c) to Moscow. Submitted 20aug89 to Aust. Journal
of Physics, letter em689ct. Rejected their letter 15 9 89. Submitted to
IEEE Trans emc, 20aug89, letter em689cs. M Kanda replied 19sep89 saying it
was too short, and asking me to expand it. Rejected by New Scientist,
their letter 20sep89. ✓

(Longer) The transmission line reconsidered. em989cg Expanded from
em689cb as a result of suggestion from editor of IEEE Trans EMC, his
letter 19sep89. em989cf (double spaced version of em989cg,) submitted to IEEE Trans
EMC on 28sep89, my letter em989cx, following their editor Kanda asking
me 19sep89 to expand it.

em689b

✓ Electromagnetism, the only dualistic theory. em689b 23 6 89. Rejected by
Physics World, 11 7 89. Rejected by IEE Review on 2aug89. → FG
em689c
Submitted to IEEE Spectrum on 16aug89.
Rejected by New Scientist, their letter 20sep89.

em789ec

✓ The second death of electric current. em789eb. Submitted to IEE Review on 23 7 89. (I intend to expand this article beyond em789eb. Use The Conquest of Thought, EWW dec87.) Receipt acknowledged by IEE post card 3aug89. (Unclear which journal of IEE acknowledged receipt.) Rejected by New Scientist, their letter 20sep89

→ FG

em789fj

✓ Ten years after the death of electric current. em789fc 23 7 89 (Includes the transmission line reconsidered, em689c. Includes diagram labelled em789c This is em789eb + politics and history of C.A.M.). Submitted to Proc IERE on 31 7 89; em789fz. Returned 2oct89 with letter saying IERE has merged with IEE. Submitted to Egyptian Journal of Physics on 16aug89. Rejected by New Scientist, 20sep89

→ FG

Interaction between TEM waves. em789c. Only title so far. Intend to assert that we don't know nature of interaction.

What is a theory? em909aa. First draft written on 23sep89.

em909dd ?On the transmission of electrical energy through wires? Copied from Heaviside's book. Submitted (inappropriately) to IEEE Spectrum (emcatz; wrong kind of file name) in early oct89. Figures hand drawn at bottom of printout which was sent to IEEE Spectrum. Must submit elsewhere.

Proc IEE-A, Michael Faraday House, Six Hills Way, Stevenage, Herts. SG1 2AY. Sent The transmission line reconsidered 30jun89. Sent em789db Energy and Space 26 7 89. Rejected by Chantry in long 8aug89 letter. (See my reply em789bw, not sent because too harsh.) Submitted Advances in e-m theory, em789bb, with covering 21aug89 letter since erased. (Very simple letter submitting ADVANCES IN E-M THEORY.)

IEE Review, address as Proc IEE-A. Sent em789eb The second death of electric current on 28 7 89. P A Price Managing Editor IEE Review his ref 91/03/GAP/AH dated 2aug89 rejected 'The transmission line reconsidered'(em689c) and 'Electromagnetism, the only dualistic theory' (em689b). (He referred to my letters dated 15 and 16 July.)

Proc IERE, 99 Gower St., London WC1E 6AZ. Submitted The second death of electric current on 31 7 89. Returned with letter 20oct89 saying that in oct89 IERE merged into IEE.

IEEE Spectrum, 345 East 47th St., New York, N.Y. 10017-2394, U.S.A. Submitted em689b Electromagnetism, the only dualistic theory, on 16aug89. Submitted em909dd in early oct89. (But journal is not appropriate for my articles, I realised next day.)

IEEE Transactions of Electromagnetic Compatibility, 345 East 47th St., New York, N.Y. 10017-2394, U.S.A. 20aug89 submitted em689cb, The transmission

line reconsidered, letter em689cs. 19sep89 M. Kanda replied, asking me to expand it because it was too short. I expanded it and re-submitted em689cx on 28sep89.

Journal of Theoretical and Mathematical Physics, 233 Spring St., New York, N.Y. 10013. Submitted em689c The transmission line reconsidered on 15 aug 89, without diagram. They ("PLENUM PUBLISHING CORP.") replied, their postmark 5sep89, redirecting my submission to Moscow. (See under "The Transmission Line Reconsidered", above.)

Journal "Foundations of Physics", 233 Spring St., N.Y. 10013. Submitted em789db Energy and Space on 16aug89. They rejected by letter 6sep89 and seemed to suggest "Physics Essays", Canada.

New Scientist, King's Reach Tower, Stamford St., London SE1 9LS. Martin Alder, FORUM Editor (presumably part of NS), wrote to me on 20sep89 rejecting em789db Energy and Space, em789b Advances in Electromagnetic Theory, em689c The Transmission Line Reconsidered, em689b Electromagnetism, the only dualistic theory, em789ab The second death of electric current, em789fc Ten years after the death of electric current.

E. Panarella, Editor, Physics Essays, c/o National Research Council, rm 100, Bldg M-10, Ottawa, Canada K1A 0R6. 18sep89. I must submit em789db to them. (Energy & Space.)

Egyptian Journal of Physics, NIDOC, Tahrir St., Awqaf P.O., Cairo, Egypt. Submitted em789fi. Ten years after the death of electric current, on 16aug89 (letter em689fy)

Annales de Physique, 1570Fr. Editions de Physique, Z.I. de Courtoisboeuf, B.P. 112, 91944 Les Ulis Cedex, France. Submitted em789bb, Advances in e-m theory, on 20aug89, letter em689bw.

Canadian Journal of Physics, National Research Council of Canada, Research Journals, Ottawa, Ontario K1A 0R6. Submitted em789bb, Advances in e-m theory, 20aug89, letter em689bt. Rejected, their letter sept21,89.

Australian Physicist, Australian Institute of Physics, Science Centre, 35 Clarence St., Sydney, N.S.W. 2000, Australia. Submitted em789bb, Advances in e-m theory, 20aug89, letter em689bz.

Australian Journal of Physics, 314 Albert St., East Melbourne, Victoria 3002, Australia. Submitted 20aug89 em689cb, The transmission line reconsidered. Rejected, their letter 15 9 89.

20aug89. The above appears to list 16 submissions of articles to journals during the past month or so. However, it does not include some submissions done without the aid of the word processor. Actual number of

submissions during june july aug 89 will total between 15 and 25.

03aug89. Copies sent to D.S.Walton of: em689bb, em689cb, em700bb, em709db, em732ec, em709fc, 21jul89 letter to M Mahoney (mah709e), jf889c, and this file. 14c4f.

28sep89 Under the list of journals, I can today count up ten rejections. This seems much lower than the actual number, from my memory. However, checking through the list of articles, I count even less rejections - eight!

Submissions during June July Aug 89 total between 15 and 25
